

AC FAN SPEED CONTROL - 230 VOLT, 15 AMPS

Part # 600-WC215

The WC line of Solid State AC Motor Speed Fan Controls are for simple speed control of fans and blowers on board a vessel.

Controllable Motors

The WC line of Solid State AC Motor Speed Fan Controls provides infinitely variable speed motor control for Shaded Pole, Permanent Split Capacitor and Universal (AC/DC) motors.

Electrical Rating

Rated for motors of 230 VAC, 50/60 Hz with a maximum rating of 15 amps. Has a variable speed motor control, an on/off line switch, a high gain RFI noise suppression filter and a minimum speed trimpot.

Mounting

The WC Solid State AC Motor Speed Fan Control is designed for mounting in a standard 2" X 4" electrical wall box.

Enclosure

The variable speed motor control is mounted in a flame retardant ABS enclosure.
